

Dear Guests,

Welcome in chalet FIMALOC.

We suggest reading this welcome guide to you .
It 'll help you to use the equipments inside the chalet and give you some usefull informations in order to let you fully enjoy your holidays.

During your stay, you can contact, for all request concerning the chalet and the equipment.

Peter : 04 76 11 08 00

Marie-Pierre Nourry : 06 13 39 13 60

We thank you very much to respect this accomodation and take care of the provided equipment.

We wish you a very pleasant stay in « Vaujany La Villette » ...

Philippe and Marie-Pierre NOURRY

WELCOME GUIDE IN CHALET FIMALOC

MOST IMPORTANT THINGS

Access

To enter inside the chalet, please use exclusively the hall for skis or bikes door on the left side of the chalet. We'll give you two pairs of keys, and you can use the key box near the hall door.

Room for skis and bikes

This room is used for skis, ski shoes or bikes storage.
Inside the living room and in the floors, it's forbidden to walk with ski shoes or bikes shoes.

Smoking

Smoking is forbidden inside the chalet.

Pets

Pets are not allowed inside the chalet.

Heating - Hot water and Isolation

Heating is entirely electrical. The standard programming for the heating is : comfort mode with a middle temperature (position 2, temperature around 20 / 21 °).
In each bathroom, heating is provided by electric heater for towels. Switch on position 20 maxi.
Please, don't use it to dry any other clothes but exclusively bath towels.
Two 300l hot water tanks provide hot water inside the chalet.
We advice you to close shutters each evening for a best isolation. Curtains are mainly for decorating.

Electricity and lighting

The electricity meter is located inside the skis and bikes hall on the right side when entering in the hall.
Thanks to you to indicate any electrical abnormality.

Car park

Two private parkings for two cars are located near the chalet, on the other side of the local road.

Cleaning

You'll find inside the chalet a vacuum cleaner, a broom, a bucket and anything necessary to clean the floors. We provide you some cleaning products specifically for vitreous ceramic hot plates, stone groundfloor and wooden floors.

When leaving the chalet, please empty all your garbages and bring it in the communal place 50 meters right on the Vaujany road, clean and tidy up the dishes in the cupboards, empty the fridge and collect all dirty sheets and linen in bags on the groundfloor.

Bathroom linen

You'll find at your arrival for each person a bath sheet, two towels and two faceclothes and for the group 2 bath carpets

Sheets and Homelinen

At your arrival, all the sheets necessary for your stay will be placed on the beds. On each bed, you'll find a cover and a cover bed. Supplementary pillows and covers are placed in cupboards in each bedroom for your use if you wish. Tableclothes and towels are provided and upon the table at your arrival. To protect the wooden table in the living-room, we advise you to use the provide tablecloth.

Garbage

Plastic bags for rubbish bins must be used for each rubbish bin inside the chalet (kitchen and bathrooms). Rubbish must be brought in the garbage place located on the right side of the road direction Vaujany.

Security

The chalet is composed mainly in wood. Be very careful to avoid fire. The chalet has been entirely renovated in 2009 according to modern security building standards. However, we advise you to look after your young children, especially on the 2nd floor.

EQUIPMENT

Instructions for use household appliances may be read in two ring binders located in the little bookcase on the left side of stairs on 2nd floor (under the little window).

Washing machine

Push on the on /off button

Push on the orange button for opening the door

Put the dirty linen inside the washing machine

Put the washing powder in the middle compartment on the left side of the washing machine

Close the door and choose your program (coton, etc..)

Start by pushing the start button (left side)

Tumble dryer (upon the washing machine)

Push on the on /off button

Push on the orange button for opening the door

Put the wet clean linen inside the tumble dryer

Close the door and choose your program

Start by pushing the start button (left side)

At the end of the drying sequence, the tumble dryer rings automatically and keep ringing until you open the door. Empty immediately the tumble dryer for best efficiency.

Dish washer

Use exclusively specific products for dish washers with salt.

To choose the program , open the dish washer, buttons are located on the top side of the door.

Push on the ON / Off button (right side)

Choose preferentially the economic program

Washing sequence duration is displayed

Close the door, it starts automatically

At the end of the washing / drying sequence , the dish washer rings until you open the door in order to dry completely (top of glasses for example)

Traditional oven

Choose the cooking program or choose Clean (for a pyrolysis cycle) with the turning button on the left side

Tune the temperature with the right turning button

Tune the program or time-switch with the middle button : push several times on the button with clock and choose the type of programmation : duration, start time , etc..)

The oven automatically rings at the end of cooking until you put off the program.

During your stay if you have been using intensively the oven, start a pyrolysis cycle before you leave

Vitreous ceramic hot plates

Put on the on / off button on the left side
then choose your hot plate, push on + and tune the temperature (from 1 to 9)
Touch lightly and don't press buttons.

To put off a hot plate, put on 0

To put off all the hot plates, push on the on / off button on the left side

Vitreous ceramic hot plates are induction plates. Cleaning must be done with a wet non abrasive sponge and specific vitreous ceramic cleaning products. You can also use a specific scraper (in the 3th drawer) to clean stick and burned stains

Microwave

Open the microwave's door from right to left .

Push the button ON /OFF to start

Tune duration of cooking and start

The microwave rings until you stop it pushing the button OFF

Hood

Pull the hood's drawer upside the hot plates, switches (light and extractor) are located upon the hood's drawer.

Television

Numerical TNT (about 20 channels). See the instructions for use with two remote controls. Thank you not to modify freebox parameters, neither connection between TV and freebox.

Television is plugged in permanently. To switch on, first use the TV remote control (the greater). Push on TV .. Music starts and signifies that TV is OK.

Then use the TNT remote control (the smaller). Push on Power - VIDEOSAT screen appears on TV and the last channel used is automatically displayed.

To modify the channel, it's better to use scrolling arrows near the button OK from the TNT remote control than the numbers.

To switch off, push on exclusively the TV button on the TV remote control.

Hi-Fi system

A simple Hi-Fi system is placed in the living-room located on groundfloor. It's possible to listen radio , CD and musical DVD.

Internet connexion

The high speed Internet connexion is possible using a « livebox » located on the ground floor furniture.

For a WiFi connexion to livebox E830 , please enter the Key WAP :

DE1D 4531 79A9 D964 755F 5252 12 (see under the livebox)
